

eeTerminal Quick Start

Software Installation:

1. The software is available at devicefunctions.com/cat/software.htm. Download the compressed folder file `eeterminal.zip`. Extract all files to a file folder on your local disk or USB drive, double click `setup.exe` to start software installation.
2. Follow the on-screen instructions until the setup wizard finishes.
3. The software will be activated automatically when used with our products.

Use eeTerminal:

1. Double click **eeTerminal** icon  to start the application.
2. Refer to **eeTerminal** user manual for more information.
